DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Tuesday, 22 December 2020 at 05:40 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Largely dry, cold with sunny spells in the north. Cloudy, with some rain in the south. Air pollution levels should remain Low for most areas, although light winds may lead to local Moderate air pollution levels near the Humber.

Tomorrow: Unsettled, with rain and strong winds across central and southern parts of the UK on Wednesday. Brighter and colder, with wintry showers in the north. Air pollution levels will remain Low across all parts.

Outlook: Brighter and colder conditions spreading to all parts on Thursday and Friday, with a few wintry showers possible along the east coast. Turning widely unsettled by Saturday. Air pollution levels are expected to remain Low across the UK.
